

Global Leader in Diagnostic Technology

Megazyme International Ireland develops, manufactures and supplies innovative diagnostic test kits and reagents for quality management in the cereals, food, wine and biofuels industries.

Megazyme was recently named overall winner of the SFA National Small Business Awards 2013. It was also selected as the Irish Exporters Association's Innovation Exporter of the Year Award 2012.

Megazyme is totally committed to customer satisfaction and to developing its international business. The company sells to over 70 countries, either directly, or through an international network of 30 distributors.

For his contribution to analytical methodology, Dr. McCleary has received several prestigious international awards.
